3,100 reasons to say NO to Option 4

Fact: Hart Council is making plans to build over **7,500 houses** in the district.

Fact: Hart's previous vision was **to protect the countryside and the character of our villages.**

Fact: We have to co-operate with **Surrey Heath and Rushmoor** and they have said that they can't build all of the houses they need so they are trying to force Hart to build an **extra 3,100 houses** for them.

Fact: **Councillors ignored the views of local residents** and decided on Option 4 (New Settlement), probably at Winchfield, as their preferred option. This will result in a **5,000 house new town** leaving us no defence against Surrey Heath and Rushmoor.

Fact: Hart Council is **ignoring loads of brownfield sites** that could be developed to avoid the need for a new town.

Option 4 (New Settlement) will be **bad for Hart** because:

- It will force Hart to **build an extra 3,100 houses** for Rushmoor and Surrey Heath
- The northern part of Hart will turn into a **single urban sprawl** and we will **lose the distinctive nature of our villages**
- There will be **more congestion and traffic** all over the district, particularly in **Fleet and Church Crookham**
- It will leave **brownfield sites** untouched all over the district where we could build housing and keep our countryside green
- It will create **intolerable pressure on our local services** such as doctors, schools, roads and railways
- It will **destroy our environment** and the very nature of Hart's unique appeal – the reason we all love living here.

Demand that Hart Council withdraws Option 4 so that we can keep our villages and towns safe from urban sprawl

Please **make your voice heard** at the election and only vote for candidates who **oppose Option 4 (New Settlement)** and oppose this level of development in our beautiful district. Please also sign and share our **petition** at:
